

1. INTRODUCTION:

1.1 OVER VIEW

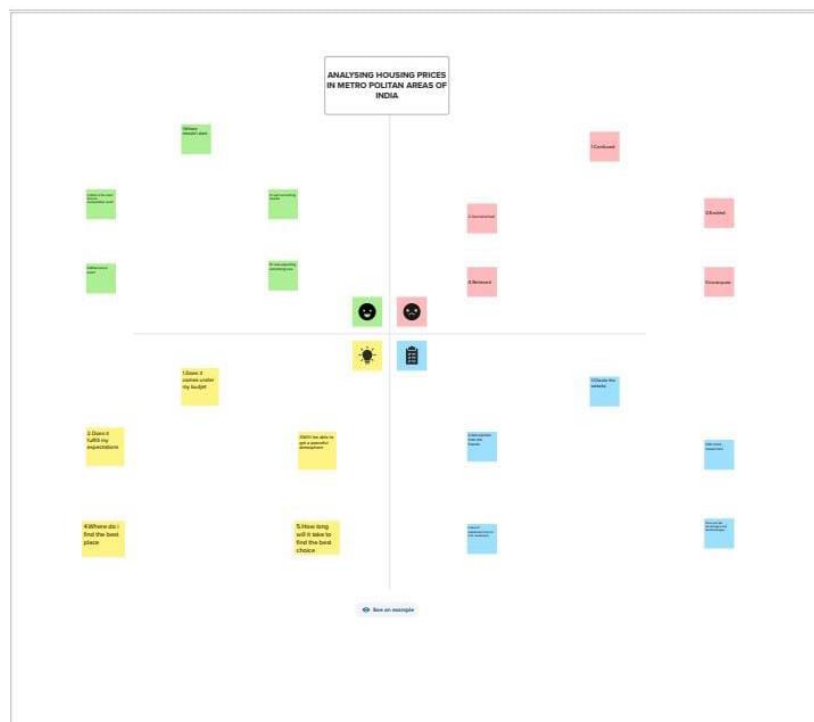

The project aims to analyze housing prices in a specific metropolitan area in India. It involves data collection, preprocessing, and analysis to understand market trends and factors affecting prices. The project provides insights for stakeholders, including homebuyers, investors, and policymakers.

1.2 PURPOSE

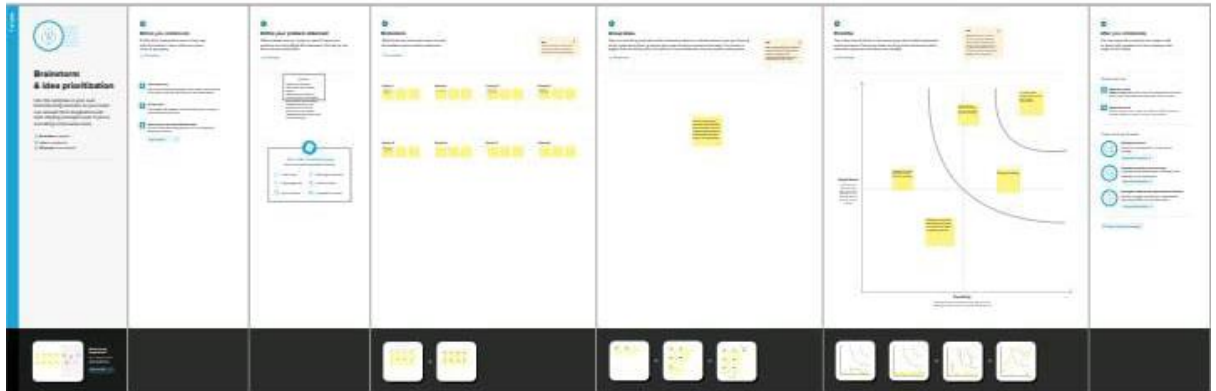

The purpose of the project is to provide valuable insights into the housing market in a specific metropolitan area in India. It aims to assist homebuyers, investors, and policymakers in making informed decisions by analyzing price trends and key factors influencing the market.

2. PROBLEM DEFINITION & DESIGN THINKING

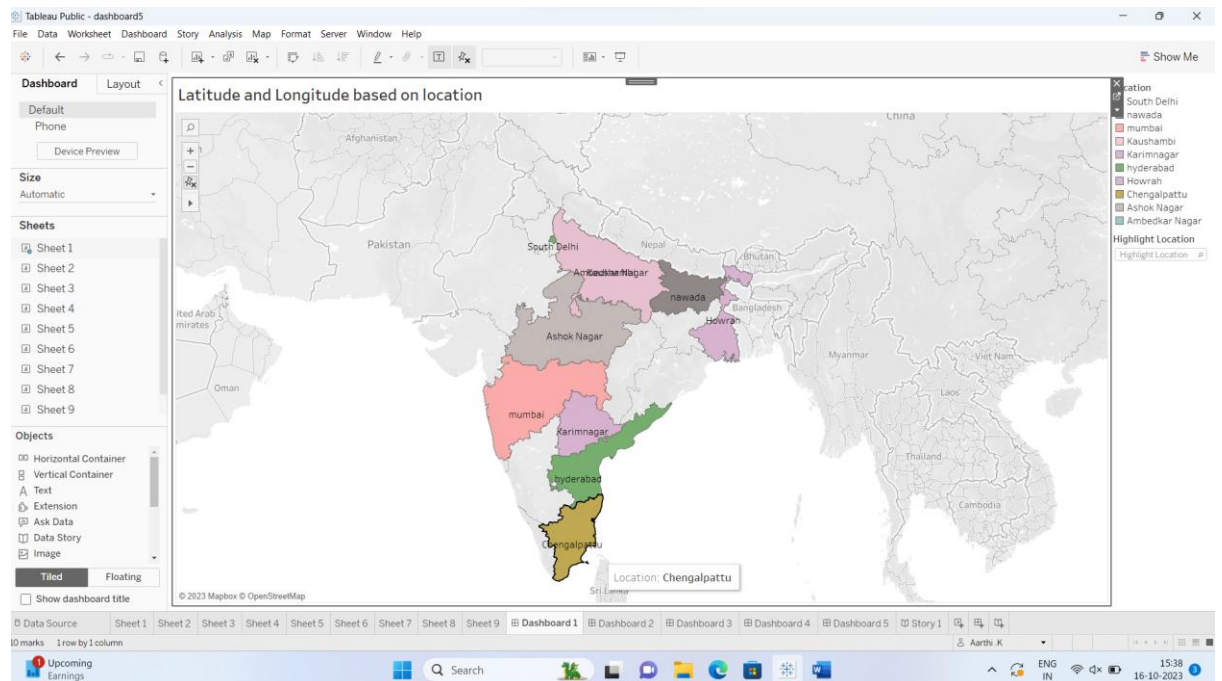

2.1 EMPATHY MAP

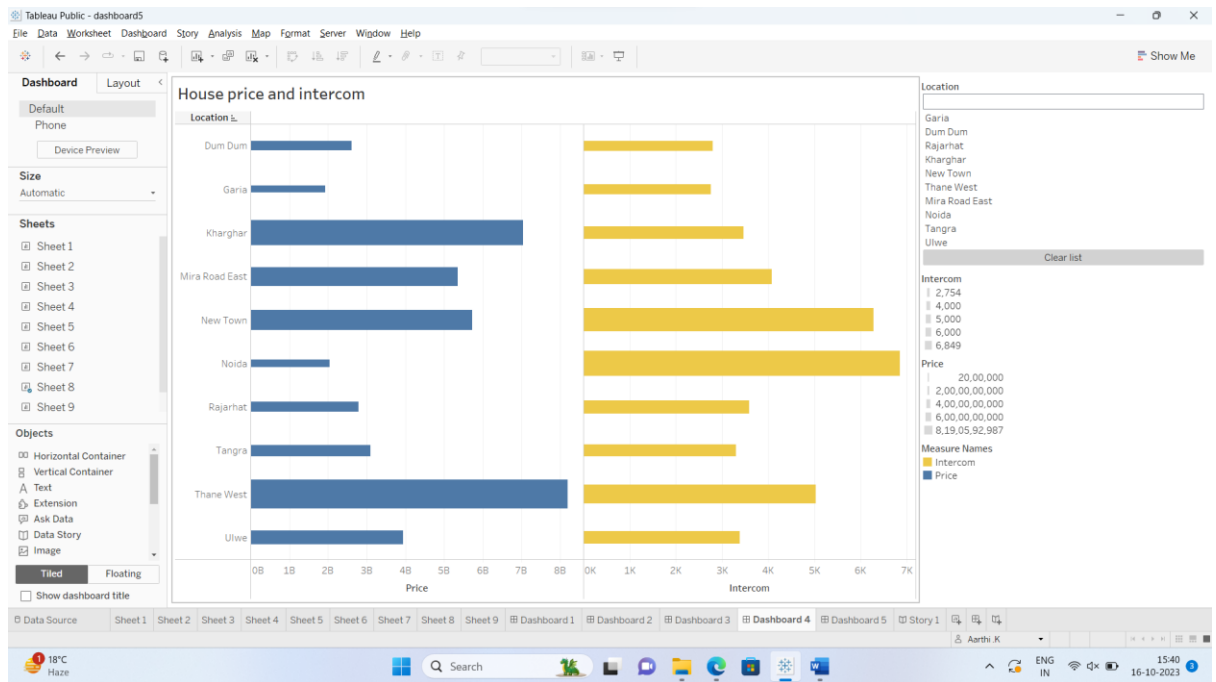

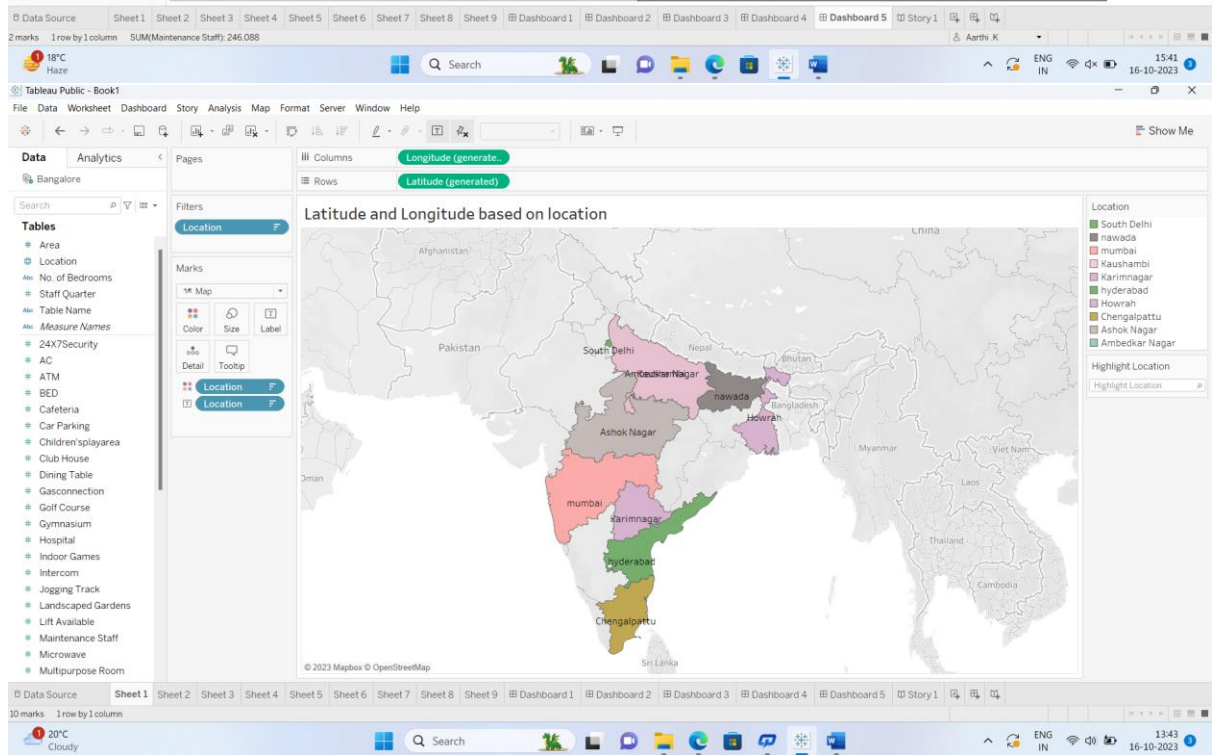

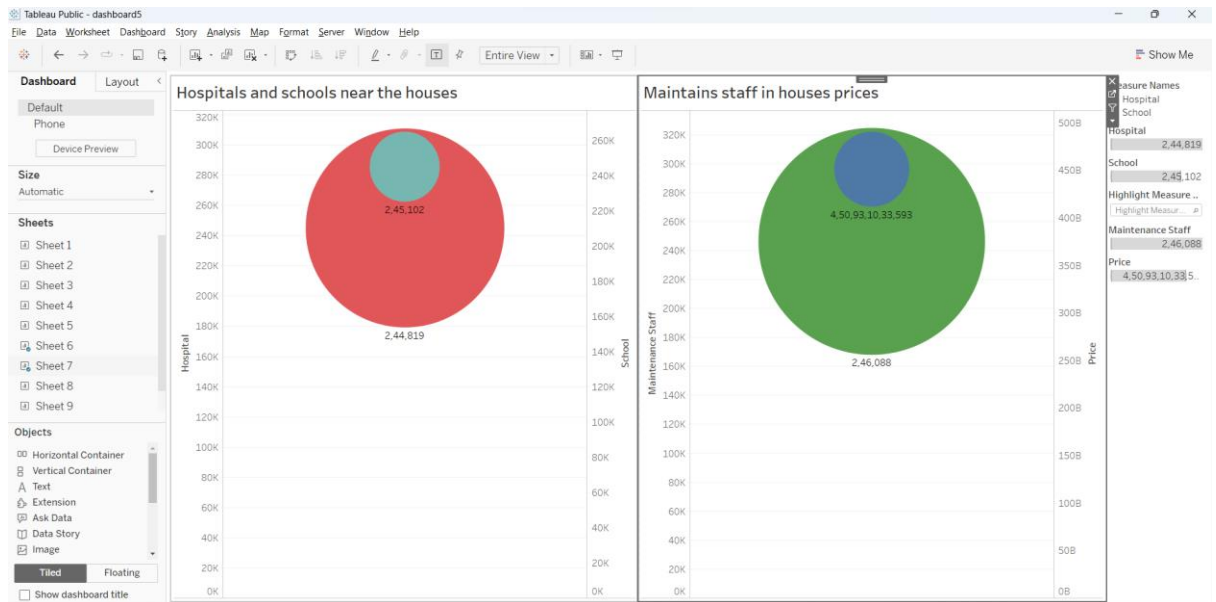

2.2 BRAIN STORMING MAP

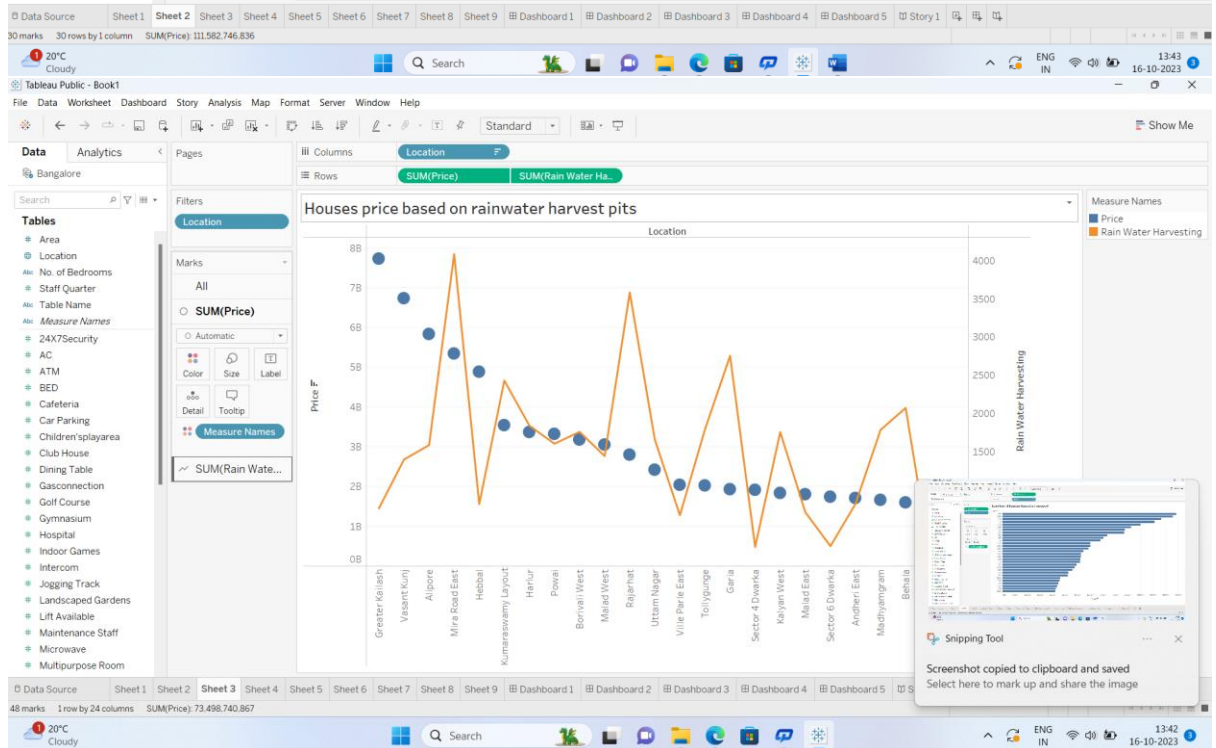

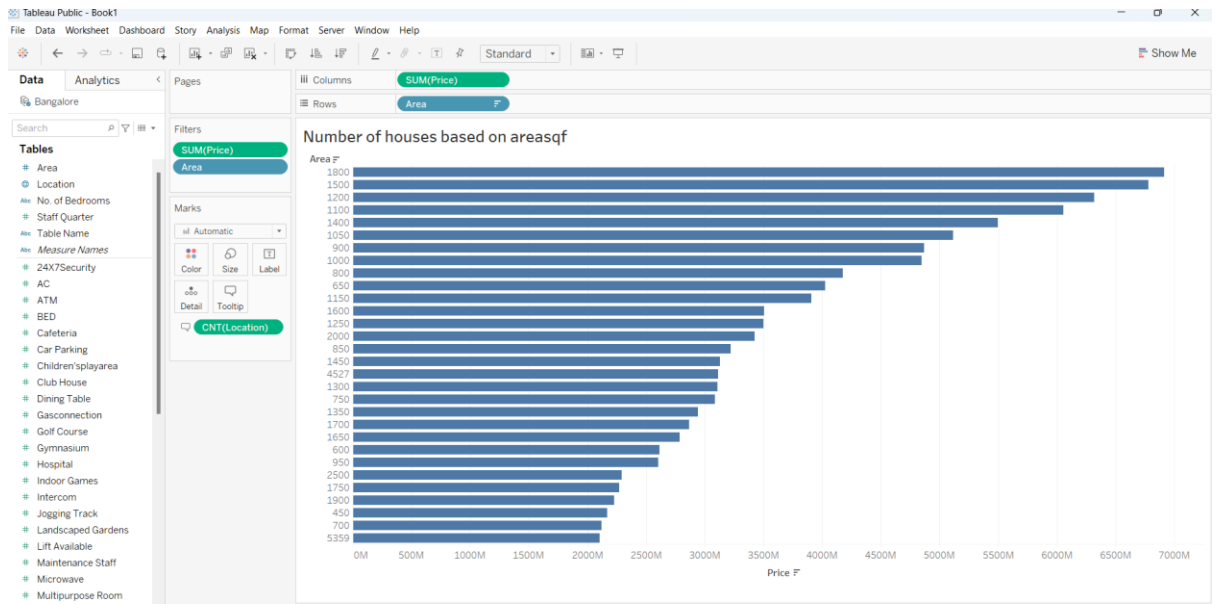

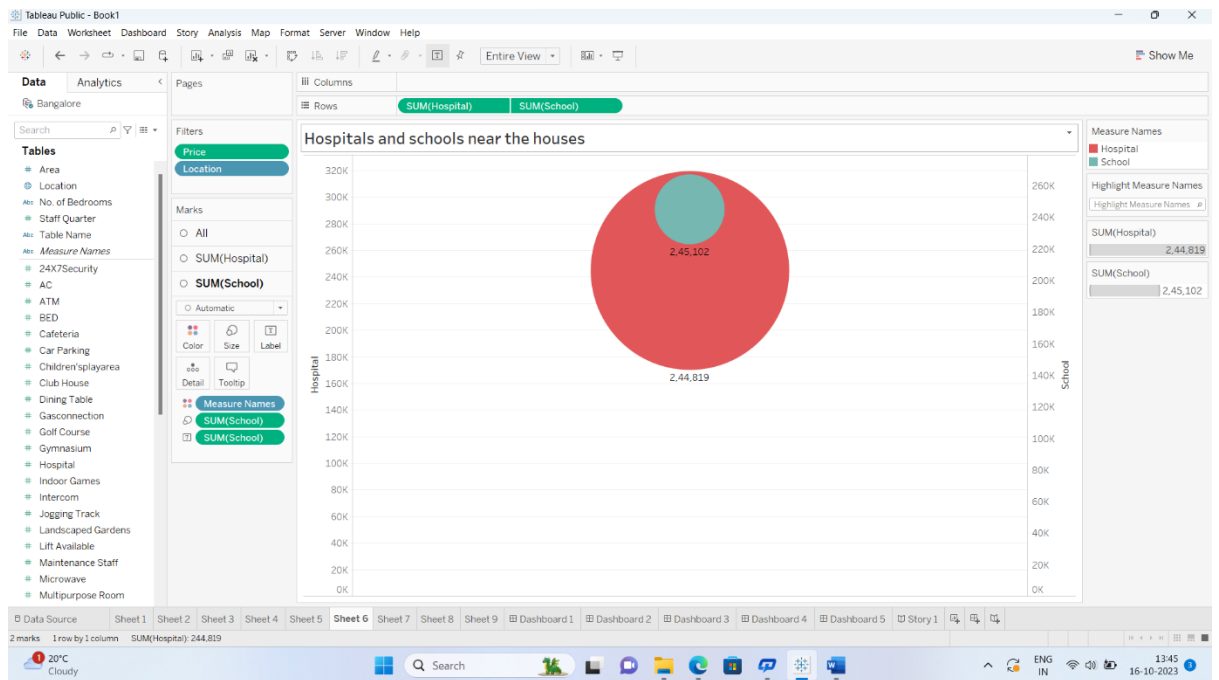

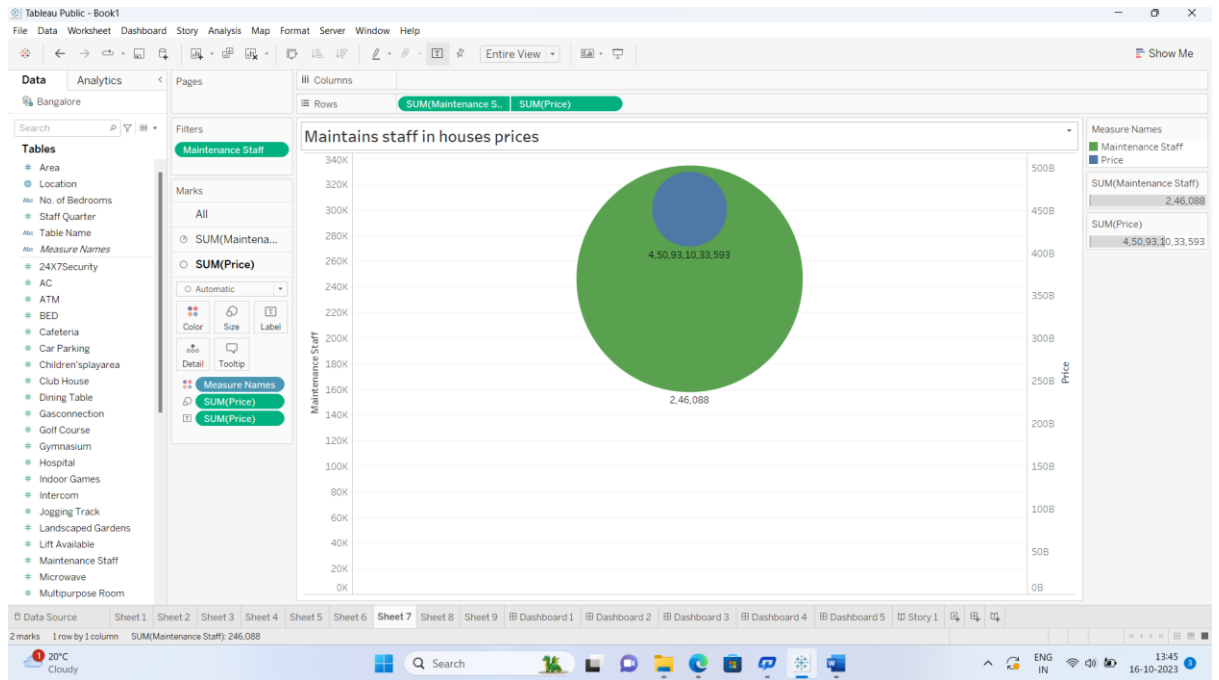

3. RESULT :

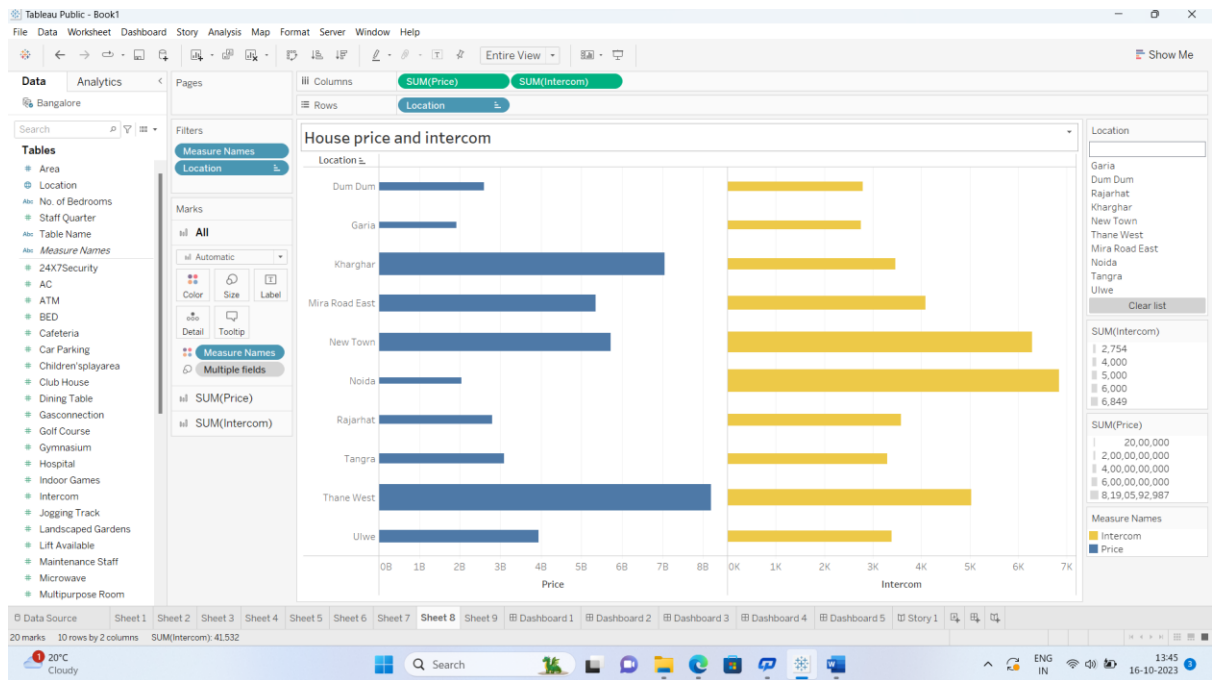

4. ADVANTAGES :

- i) **Informed Decision-Making:** Assists stakeholders in making informed choices.
- ii) **Market Insights:** Provides valuable data for real estate investors.
- iii) **Urban Development:** Supports city planning and infrastructure decisions.

5. DIS-ADVANTAGES :

- i) **Data Reliability:** Report accuracy depends on data quality.
- ii) **Rapid Changes:** Housing market dynamics can shift quickly.
- iii) **Limited Scope:** May not account for all factors affecting housing prices.

6. APPLICATIONS :

The application of this project includes assisting homebuyers in making informed property purchases, helping investors identify potential real estate opportunities, and aiding policymakers in formulating effective housing and urban development strategies within the chosen metropolitan area in India.

7. CONCLUSION :

The conclusion of the project on analyzing housing prices in a metropolitan area in India summarizes the key findings and insights derived from the analysis, offering valuable information to homebuyers, investors, and policymakers to make informed decisions in the local housing market.

8. FUTURE SCOPE:

The future scope of this project includes ongoing data analysis to monitor changing housing market trends, exploring broader urban development implications, and collaborating with local authorities for informed policy decision-making.
